

MATEUSZ SZYMAJDA

ENGINEERING MANAGER |
AI-DRIVEN QUALITY & DELIVERY

CONTACT

- +48 501 100 615
- mateusz.szymajda@gmail.com
- www.mszymajda.com
- linkedin.com/in/mszymajda
- Warsaw, Poland

SKILLS

- Leadership & Management
- Test Automation (E2E, API, Unit)
- Quality Engineering / Shift-Left
- Security & Performance Testing
- CI/CD, Pipelines, DevOps
- Full-stack Web Development
- Product Development
- Project Management & Delivery

TOOLKIT

- Playwright / Cypress / Selenium
- React Native / Detox / Appium
- JavaScript / TypeScript
- Python / Bash / Docker / C++
- ML, Edge AI, TensorFlow, Keras
- Computer Vision, IoT, MQTT
- Embedded, ESP32
- React / Next.js
- Postman / Swagger
- Node.js / NestJS
- Jest / Mocha
- GIT / Gitlab / Github
- Sentry / Grafana / Datadog
- AWS / CloudFront / S3
- DynamoDB / NoSQL
- Postgres / Supabase
- K6 / JMeter
- OWASP / SAST / DAST / FOSS
- BrowserStack

ABOUT ME

Business-oriented Engineering Enablement Leader with 9+ years of experience building scalable quality and delivery systems across FinTech, HealthTech, and SaaS.

I design engineering strategies that reduce delivery risk, improve reliability, and increase deployment velocity. Experienced in forward-deployed and customer-facing environments, translating complex business requirements into practical, high-impact technical solutions.

EXPERIENCE

HEAD OF QUALITY ENGINEERING

Primary Portal, FinTech Startup, UK
07.2024 - Present (full-time)

- Built and scaled Quality Engineering function from zero**, designing automation architecture and CI/CD pipelines that enabled reliable, scalable delivery in a regulated FinTech environment.
- Designed and built internal engineering intelligence tools**, including:
 - SOC2-aligned security automation (SAST/DAST)
 - KPI dashboards for leadership visibility
 - FIX protocol E2E testing frameworks
 - AI engineering assistants (LLMs, MCP, n8n)

QUALITY ENGINEERING MANAGER

CardoHealth, HealthTech Startup, Spain
04.2023 - 07.2024 (from contract to full-time)

- Established SDLC and quality processes aligned with business goals, creating a **predictable and scalable delivery model**
- Built test automation frameworks that **increased release velocity**, reduced manual testing cost, and lowered failure rates
- Led Brazilian market expansion including **migration of 2M+ patient records** and launch of native mobile apps
- Built and **mentored a high-performing distributed engineering team** while establishing a healthy remote culture

QUALITY ENGINEERING MANAGER

WhiteAway, eCommerce, Denmark
08.2022 - 01.2024 (consulting)

- Defined QE and development strategy for eCommerce platforms in a **forward-deployed model across 4 product teams** and 1 platform squad
- Built automation frameworks and optimized QE pipelines for **microservices and cloud architecture**
- Coached squads to elevate testing practices, engineering quality, and delivery workflows
- Rebuilt experimentation stack and vendor **ecosystem for A/B testing**
- Introduced **automated DORA metrics dashboards** enabling data-driven engineering improvements

EDUCATION

Bachelor of Engineering
Geoinformatics
2010-2014

Coding Camp
Software Engineering
2016-2017

QUALITY ENGINEERING LEADER (YC S21)

Union54, Fintech Startup, Zambia
03.2022 - 08.2022

- Led **3 Quality Engineers** in a specialized and challenging banking area
- Optimized CI/CD and **improved deployment frequency** by parallel test runs for API & E2E suites
- Built innovative **FinTech startup in the African market**

QUALITY ENGINEERING LEADER

Tidio, Customer Service Startup, Warsaw
03.2021 - 03.2022

- Led a **team of 9 Quality and Product Security Engineers**
- Proposed, planned, and managed **several Continuous Testing & Delivery initiatives** that enabled scaling the company up
- Drove a cultural and organizational change in Tech Team (ca. 60 Engineers) from traditional **QA** to **shift-left practice**

QUALITY ENGINEER

Fresha, SaaS Startup, Warsaw
10.2019 - 03.2021

- Defined and implemented **CI/CD process Improvements**
- Drove internal and external knowledge-sharing
- Owned several technical and product initiatives
- Handled Quality Engineering of **SaaS products**

SENIOR TEAM LEADER

Netguru, Software House, Warsaw
07.2019 - 10.2019

- Planned and executed strategic goals for the QA department with the Technology Head and Senior Managers
- Led RnD groups responsible for QA technologies and frameworks

TEAM LEADER

03.2019 - 07.2019

- **Led a team of 7 Engineers**, mentored, drove career growth, and supervised projects
- Planned the strategy for CI/CD process implementation
- Handled **Business Development within QA areas**, defined products and services, participated in expert calls with clients, improving presales processes that resulted in selling up-selling services.
- Defined new roles and ran engineers recruitment

QA ENGINEER

05.2018 - 03.2019

- Consulted major clients
- Took the initiative and built a successful QA team at the client's site
- Automated API tests

QA ANALYST

UEFA, Switzerland
05.2018 - 03.2019

- Drove Digital transformation that included strategic Development and Quality plans
- Hired Engineers
- Planned tests automation

**QA ENGINEER**

GogoApps/EcoVadis, Warsaw
12.2017 - 05.2018

- Did QA for a major client
- Automated API testing

**SOFTWARE TESTER**

Orange, Telecom, Warsaw
2017

- Tested web and mobile applications

**WEB DEVELOPER**

Freelance, Warsaw
2017

**PROJECT MANAGER**

JTI, Warsaw
2016-2017

- Led digital platform development (CMS, eCommerce)
- Coordinated R&D and EUTPD projects

**PROJECT MANAGER**

Imperial Brands, Warsaw
2014-2016

- New products development and portfolio changes management
